

The University of Plymouth can offer some of the region's best facilities for conferences and groups. Situated in the city centre the University provides an excellent venue for events and meetings, with the latest technology supported in purpose-built lecture theatres and meeting rooms.

Accommodation, which has achieved a 3 star rating for quality, is available during the summer vacation in the centrally located halls of residence. There are 1000 en-suite bedrooms on the campus, which is within walking distance of all Plymouth's attractions and only a few minutes stroll from the exciting new shopping mall. Single en suite rooms are provided in modern self-contained flats, each with 6 rooms and a shared kitchen area.

The University's catering service prides itself on its use of good quality locally sourced products and fair trade produce. The conference rates include buffet and dinner menus, and refreshments throughout the day. The university can also cater for most diets, and offers a range of extra options from packed lunches to 5 course banquets and receptions.

Conference facilities are available during non-teaching times, and as you would expect from a modern academic organisation, they include the best modern facilities, with full technical support.

With an extensive building programme currently underway, we are constantly adding to and upgrading our existing provision.

All events at the University are supported by the conference team, who are pleased to offer help and advice throughout the planning stage, to ensure each event is successful.

A Selection of Room Capacities Include
